

Save time, save money with FOS!

Save your time and money!

Find it on the MAP! The Find Oil Services (FOS) system provides you with a Map and Organizational tools like none other.

FOS will reduce your project costs and save you time preparing your projects AND ITS FREE TO USE!

FOS will accept all of your Projects from Survey to Drilling to Well Maintenance & Abandonments and you can receive proactive responses from Vendors with your bottom line in mind.

FOS allows you to connect your assets to service providers in the most organized and cost effective manner created.

Plan ahead using the system, take advantage of local services, share assets, SAVE MONEY & TIME.

The FOS system allows you to store and share relevant project related documents; it is a great meeting tool for Drilling/Completions/Facilities/Production/Reclamation.

Control who sees your projects by using the "Private" button. Post your Service needs weeks/months in advance to get accurate costs.

Call Brad Gathercole to discuss at: 403-399-4476 to discuss.
